## EXHIBIT A

### **BID SPECIFICATIONS**

#### PURPOSE, INTENT AND PROJECT DESCRIPTION

The City of Johns Creek Public Works Department (City), requests that interested parties submit formal bids/proposals to construct intersection improvements and traffic signal removal and replacement in the following location:

- McGinnis Ferry Road @ Sargent Road and
- McGinnis Ferry Road @ Johns Creek Pkwy

All work shall be constructed according to the Design Plans and are made part of the contract by reference.

#### SCOPE OF WORK

The Contractor shall construct the project per:

- Georgia Department of Transportation (GDOT) Specifications, Standards, and Details;
- The Contract Documents including but not limited to the scope of work and specifications;
- The Plans - drawings/details/notes;
- Purchase Order;
- Approved Schedule;
- City of Johns Creek ordinances and regulations;
- OSHA standards and guidelines;
- Any other applicable codes, laws and regulations including but not limited to Section 45-10-20 through 45-10-28 of the Official Code of Georgia Annotated, Title VI of the Civil Rights Act, Drug-Free Workplace Act, and all applicable requirements of the Americans with Disabilities Act of 1990

The contractor will be responsible for providing all labor, materials, and equipment necessary to perform the work. The contractor will be responsible for constructing all improvements shown on the plans unless specifically noted otherwise in the specifications/plans.

The contractor is responsible for inspecting the jobsite prior to submitting a bid. No change orders will be issued for differing site conditions. In case of discrepancies between the plans and specifications the most stringent prevails.

The successful bidder must have verifiable experience at construction of similar projects in accordance with these specifications. **Bidder shall provide references demonstrating experience completing projects of similar scope.**

The City will inspect the work as it progresses.

Retainage in the amount of 10% of the total amount due on each monthly invoice will be held by the City until project completion and acceptance.

The contractor shall provide a project progress schedule by location prior to or at the preconstruction meeting. The contractor shall also provide a weekly look ahead schedule of all planned activities for the enclosed locations.

### **SPECIAL PROVISIONS**

All materials and workmanship associated with this contract shall meet current GDOT Specifications and Standards for construction materials, methods and procedures. Please refer to the GDOT website for the most current versions of the Specifications and Special Provisions.

The following are special provisions prepared specifically for this contract and may be in conflict with parts of the standard specifications. If conflicts are evident the special provisions shall take precedence over the standard specifications.

The contractor will install and remove signals per MUTCD, Georgia DOT specifications, and IMSA guidelines. A site visit is advisable prior to sending a quote. The contractor will be responsible for all other materials and labor.

#### **Specifications:**

- The contractor will be responsible for all traffic control including the hiring of off duty law enforcement officers to direct traffic, if needed.
- The contractor will be responsible for all utility locates and conflict resolution.
- The contractor will be responsible for all concrete testing and will provide all test results to the City of Johns Creek. If multiple concrete trucks are used, the City of Johns Creek requires test samples from each truck. Although not required to use this vendor for testing, the contractor is advised that SM&E is located in the City of Johns Creek on Johns Creek Pkwy.
- The concrete sidewalk will match the existing sidewalk.

#### **For Sargent Road at McGinnis Ferry Road:**

- Since ADA ramps are being removed the sidewalk shall no longer be sloped into the road since the pedestrian crossing is being removed across McGinnis Ferry.
- Curb and gutter is to be added where the ADA ramps are being removed and match the existing curb and gutter.
- Sod is to be added to match the existing that is already in place once the ADA ramps are removed and the sidewalk is replaced.
- The four existing signal heads on McGinnis Ferry need to be removed and two new signal heads need to be added as specified on the design. Traffic signal specifications included on design.
- The two Pedestrian Poles on the North and South side of McGinnis Ferry Road are to be removed but the concrete bases are to be left.

- Pedestrian signs are to be added where the demo of the ADA ramps is occurring to discourage pedestrians from crossing McGinnis Ferry Road.
- Tuff Curb is to be installed as a barrier for the two middle lanes on McGinnis Ferry Road.
- The overhead signing indicated on the design is to be placed on the existing span wire across McGinnis Ferry Road.
  - Overhead signs are specified on the plan sheet
- The attached design contains all other specific details contained in the project.
- The City of Johns Creek’s Transportation Division is to be notified once the Tuff Curb is installed.
- Tuff Curb to be spaced with a 40 inch gap between each piece of Tuff Curb. Posts are to be placed on every other piece of Tuff Curb except where specified on the plan sheet.

**PROCUREMENT SCHEDULE**

Bid Release	November 23 <sup>rd</sup> , 2016
Pre-bid Conference	December 6 <sup>th</sup> , 2016 (10:00 a.m.)

Council Approval	February 6 <sup>th</sup> , 2017
Anticipated NTP	February 13 <sup>th</sup> , 2017
Completion Date	August 11 <sup>th</sup> , 2017

**PROSECUTION AND PROGRESS**

The Contractor will have 180 calendar days from issuance of Notice to Proceed to be substantially complete with the project. The Contractor will be considered substantially complete when all contract work except for punch list work has been completed and accepted.

The Contractor will mobilize with sufficient forces such that all construction identified as part of this contract shall be substantially completed by the completion date indicated above. Upon Notice of Award the Contractor will be required to submit a Progress Schedule. The Contractor shall be assessed liquidated damages in the amount of \$175.00 per calendar day for any work not completed by the deadline. Liquidated damages shall be deducted from the 10% retainage held by the City.

Normal workday for this project shall be 8:00 AM to 5:00 PM and the normal work week shall be Monday through Friday. The City will consider extended workdays or work weeks upon written request. No work will be allowed on City holidays (a complete list can be found on the City website).

The Contractor shall not install lane closures or perform work or move equipment or materials on the traveled way that interferes with traffic flow between the hours of 6:00 am to 9:00 am and 4:00 pm to 7:00 pm (Monday through Friday), and 9:00 am to 1:00 pm on Sundays.

The work will require bidder to provide all labor, administrative forces, equipment, materials and other incidental items to complete all required work. The City shall perform a Final Inspection

upon notification from the contractor that all work is complete. A Punch List of found deficiencies will be submitted to the contractor upon completion of the Final Inspection. All repairs shall be completed by the Contractor at his expense prior to issuance of Final Acceptance. 10% retainage will be held from the total amount due the Contractor until Final Acceptance of work is issued by the City.

The City will retain 10% of the fee due the Contractor. The retainage will be paid as the final invoice after the project has been completed and accepted. All punch-list work must be complete before release of any retainage.

### **PERMITS AND LICENSES**

The Contractor shall procure all permits and licenses, pay all charges, taxes and fees, and give all notices necessary and incidental to the due and lawful prosecution of the work.

### **MATERIALS**

Contractor will be responsible for quality control testing of materials incorporated into the project. All materials will meet appropriate GDOT specifications. Materials quality control test types will meet GDOT specifications at a frequency equal to or exceeding that set by those specifications.

Contractor will be responsible for replacing any work performed with material from rejected sample lot at no cost to the City.

### **EXISTING CONDITIONS / DEVIATION OF QUANTITIES**

The City reserves the right to add, modify, or delete quantities. Contractor will be paid for actual in-place quantities completed and accepted for pay items listed in the Bid Schedule. Contractor will not be entitled to an adjustment of unit price on an item which increased or decreased from the original plan quantity.

All other work required by this ITB, plans, specs, standards, etc. but not specifically listed in the Bid Schedule shall be considered “incidental work”. The bidder shall include the cost for all incidental work in the “Grading Complete” bid item. Contractor will notify the City in writing if quantities of contract items will exceed plan. At no time will contractor proceed with work outside the prescribed scope of services for which additional payment will be requested without the written authorization of the City.

All information given concerning existing conditions is for information purposes only. It is the Contractors responsibility to inspect the project site to verify existing conditions prior to submitting their bid.

No adjustment will be made to the bid based on missing or inaccurate information on the plans.

### **UTILITIES**

Contractor shall be responsible for protecting all utilities and for coordinating any utility relocation necessary for the completion of the work.

Contractor shall be responsible for the adjusting to grade of existing utility structures that are incorporated into the work including but not limited to water valves and sewer cleanouts.

All known utility facilities are shown schematically on the plans sheet, and are not necessarily accurate in location as to plan or elevation. Utility facilities such as service lines or unknown facilities not shown on plans will not relieve the contractor of their responsibility under this requirement. "Existing utility facilities" means any utility that exists on the project in its original, relocated or newly installed position.

### **TRAFFIC CONTROL**

The contractor shall, at all times, conduct his work so as to assure the least possible obstruction of traffic. The safety and convenience of the general public and the residents along the roadway and the protection of persons and property shall be provided for by the contractor as specified in the State of Georgia, Department of Transportation Standard Specifications Sections 104.05, 107.09 and 150.

Traffic whose origin and destination is within the limits of the project shall be provided ingress and egress at all times unless otherwise specified by the City. The ingress and egress includes entrances and exits VIA driveways at various properties, and access to the intersecting roads and streets. The contractor shall maintain sufficient personnel and equipment (including flaggers and traffic control signing) on the project at all times, particularly during inclement weather, to insure that ingress and egress are safely provided when and where needed.

Two-way traffic shall be maintained at all times, utilizing pilot vehicles, unless otherwise specified or approved by the City. In the event of an emergency situation, the Contractor shall provide access to emergency vehicles and/or emergency personnel through or around the construction area. Any pavement damaged by such an occurrence will be repaired by the Contractor at no additional cost to the City.

The contractor shall furnish, install and maintain all necessary and required barricades, signs and other traffic control devices (including suitable lighting for night work) in accordance with the MUTCD and DOT specifications, and take all necessary precautions for the protection of the workers and safety of the public.

All existing signs, markers and other traffic control devices removed or damaged during construction operations will be reinstalled or replaced at the contractor's expense. At no time will contractor remove regulatory signing which may cause a hazard to the public. The Contractor shall, within 24 hours place temporary pavement markings (paint or removable tape) to match existing pavement markings. No additional payment will be made for this work.

Pricing for personnel, and equipment required for maintaining temporary traffic control, public convenience, and safety are to be included in pricing for traffic control.

## **PROTECTION AND RESTORATION OF PROPERTY AND LANDSCAPE**

The Contractor shall be responsible for the preservation of all public and private property, crops, fish ponds, trees, monuments, highway signs and markers, fences, grassed and sodded areas, etc. along and adjacent to the highway, road or street, and shall use every precaution necessary to prevent damage or injury thereto, unless the removal, alteration, or destruction of such property is provided for under the contract.

When or where any direct or indirect damage or injury is done to public or private property by or on account of any act, omission, neglect or misconduct in the execution of the work, or in consequence of the non-execution thereof by the Contractor, he shall restore, at his/her own expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, rebuilding or otherwise restoring as may be directed, or she/he shall make good such damage or injury in an acceptable manner. The Contractor shall correct all disturbed areas before retainage will be released.

## **RIGHTS AND USE OF MATERIAL**

Materials excavated within the project limits become the property of the Contractor. The Contractor, at his/her discretion, may elect to incorporate any of the excavated material into his/her work provided and that it is suitable for the intended use. Materials identified to be removed and are unsuitable for the project will be removed from the site by the Contractor. All excavation, placement, hauling and grading of on-site material will be the Contractors responsibility.

## **GRADING COMPLETE**

The Contractor shall be responsible for all grading work including all clearing, grubbing, hauling, grading, excavation, backfilling, and compaction tasks associated with the work. In addition to the above listed tasks, any costs associated with providing borrow material from a location not within the project limits will be the responsibility of the Contractor. Sub-grade excavation to required elevations, removal of excavated material if necessary, sub-grade compaction, fine grading, and back-filling excavated area with suitable material will be the responsibility of the Contractor. Also included in this work will be the removal and hauling off of existing construction materials, trees and any other items necessary to complete the work.

Finished grade of disturbed areas will match and blend with adjacent areas not disturbed by construction operations. The Contractor is also responsible for all ditch grading required to maintain positive drainage.

## **EROSION/SEDIMENT CONTROL**

It is the responsibility of the Contractor to follow all Federal, State and Local erosion and

sediment control laws and specifications. This includes meeting all NPDES guidelines.

Erosion/Sediment Control measures shall be installed and maintained by the Contractor throughout the duration of the project. The Contractor is responsible for the removal and disposal, off project site, all installed temporary erosion/sediment control measures when affected areas have been restored to a level where vegetative coverings will minimize erosion.

### **GRASSING COMPLETE**

Contractor will be responsible for temporary and permanent grassing all disturbed areas. This work shall consist of ground preparation, furnishing and planting, seeding (including the cost of the seed), fertilizing, sprigging, mulching and watering of all areas disturbed due to construction operations. This work will comply with GDOT Section 700 – “Grassing.” Finished grade of disturbed areas will match and blend with adjacent areas not disturbed by construction operations. In the event that areas are damaged prior to final project acceptance, the Contractor will repair or replace as necessary. Please refer to the seeding schedule in the plans for species and spreading rates.

### **SAFETY**

Beginning with mobilization and ending with acceptance of work, the Contractor shall be responsible for providing a clean and safe work environment at the project site. The Contractor shall comply with all OSHA regulations as they pertain to this project.

### **CLEANUP**

All restoration and clean-up work shall be performed daily. Operations shall be suspended if the Contractor fails to accomplish restoration and clean-up within an acceptable period of time. Failure to perform clean-up activities may result in suspension of the work.

### **COORDINATION**

The Contractor shall keep the City updated on the construction schedule and daily work plans.
