

Kimball Bridge (SR 120) from State Bridge to Jones Bridge

R o a d W i d e n i n g

PROJECT OVERVIEW

The 1.25-mile project includes road widening, turn lanes, beautification, and pedestrian trails.

PROJECT TIMELINE

Construction projected to commence in fall 2017 and conclude in Spring 2019.

KEY POINTS

- Widening from two to four lanes, which eliminates a bottleneck at either end of the project.
- Adding center left-turn lanes.
- Adding deceleration lanes into subdivision entrances.
- Turn lanes will pull traffic out of the through-lane, allowing traffic to flow more smoothly.
- 10-foot trails on each side.
- Lighting.
