March 13, 2020

Honorable Michael Bodker, Mayor, Members of the City Council, and Citizens of Johns Creek, Georgia

Ladies and Gentlemen:

The Comprehensive Annual Financial Report (CAFR) for the City of Johns Creek, Georgia, for the fiscal year ended September 30, 2019, is submitted herewith. Georgia state law and local ordinances require that every local government publish within six months of the close of each fiscal year a complete set of audited financial statements.

This report was prepared by the City's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures rests with the City. We believe the report, as presented, is accurate in all material aspects. We also believe it is presented in a manner designed to set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. Finally, we believe that all disclosures necessary to enable the reader to gain maximum understanding of the City's financial affairs have been included.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Mauldin and Jenkins, LLC, has issued an unmodified ("clean") opinion on the City of Johns Creek's financial statements for the fiscal year ended September 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and is best read in conjunction with it.

Profile of the Government

Johns Creek was incorporated on December 1, 2006, becoming Georgia's 9th largest City. Located in North Fulton County, the City of Johns Creek is made up of the four original farming communities of Warsaw, Shakerag, Newton, and Ocee with the Chattahoochee River forming the City's southeast boundary. The City occupies a land area of 32 square miles and serves a population of 84,350 (based upon the U. S. Census Bureau 2017 estimate).

Policy making and legislative authority of the government is vested in the mayor and six council members, who are elected for four year terms on a non-partisan basis. The mayor and council members are elected at large by popular vote. The mayor and council members serve until their successors are qualified and elected. Terms of office begin on January 2nd, immediately following the date of election into office. Elections are held every four years and are conducted by the Fulton County Board of Elections. The mayor appoints, subject to confirmation by the council, a City Manager to carry out the administrative operations of the government. The City is empowered to levy a property tax on both real and personal property located within its boundaries and is able to levy all other taxes granted to municipalities within the State of Georgia.

The City operates under a Council/Manager form of government, whereby the Mayor and City Council possesses all of the executive and legislative powers granted to the government under the constitution and laws of the State of Georgia and the City of Johns Creek charter. The City Manager possesses all of the administrative powers granted to the government under the constitution and laws of the State of Georgia and the City's charter.

Deploying a non-traditional approach to government services, the City contracts with a private partner to perform some of the traditional services performed by a municipal government such as construction and maintenance of streets and other infrastructure; road repaving, community development and parks and recreation management. Other services such as public safety, human resources, finance, communications, facilities, IT, etc. are provided by government City employees. Sanitation services are not provided as a City service. Property owners make their own arrangements with private carriers. Water and sewer services are delivered to residential and commercial properties by Fulton County via intergovernmental agreements.

The annual budget serves as the foundation for the City's financial plan and assists in the control of the financial stability and health of the government. The Mayor and City Council are required to adopt a final budget no later than the close of the fiscal year. The budget is prepared by fund, function, and department. The City Manager may transfer resources within a department (within a fund) as they deem necessary. However, transfers between departments or funds require approval from the City Council.

Local Economy

The City is home to approximately 2,500 businesses. The largest employers include State Farm Insurance Company, Alcon, Inc., Emory John's Creek Hospital, and Macy's System & Technology. In general, Johns Creek is largely a bedroom community with 80 percent of its land devoted to residential use. The revenue base has remained fairly stable and the local economy is growing minimally.

The City has experienced explosive population growth over the past two decades. Between 1990 and 2000, the number of people living within the area that is now incorporated Johns Creek grew by 232 percent. In the most recent census conducted by the U.S. Census Bureau, over 33 percent of the City's population was between 35 and 55-years-old, while another 31 percent were aged 19 and younger. The census also indicated that City residents are highly educated, with 65 percent holding a bachelor's degree or higher – more than twice the rate for Metro Atlanta overall.

Median household income in 2010 was \$106,132. In 2018, the median income was estimated at \$121,848. The median home price from 2013 - 2017 was \$366,200.

The major roadways serving the City are Georgia 400 to the west and Interstate 85 to the east (both roadways are several miles outside the city limits). Several arterial roadways including State Road 141 and State Road 120 bisect the City and provide a direct route outside the city limits leading to the freeways. Limited regional bus service is provided through the Georgia Regional Transportation Authority.

Long-Term Financial Planning

As detailed within the following financial statements, the City's policy is to maintain a minimum unassigned General Fund balance equal to 25 percent of operating expenditures and outgoing transfers. Excess fund balances over reserve requirements will be used in subsequent periods for pay-as-you-go capital projects and one-time non-recurring expenditures.

As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, from which services can be provided. As outlined within the legislation creating the government, the City's operating millage rate cap of 4.731 mills is statutorily set and cannot be changed without a referendum. The City Council approved a millage rate of 3.552 mills, which is down 0.29 mills from the prior year. A comprehensive framework of financial policies was adopted shortly after the City's incorporation, which provided governance to financial matters.

The City maintained sufficient cash reserves to operate the fiscal year without issuing a tax anticipation note. Various equipment and vehicles for its public safety departments were purchased and the City continued payments on fire station financing with the County acquired upon incorporation.

The City is expected to continue to develop as a preferred location for appropriate business and residential investment as the economy continues to recover.

Relevant Financial Policies

Throughout the year, the Finance department administered the City Council's approved Financial Management Program, which outlines policy within which the government's finances are maintained. These policies address fund balances, the use of one-time revenues, issuance of debt, purchasing and procurement, cash and investment management, and accounting practices. In totality, these policies formulate the core criteria for which internal evaluations occur. On an annual basis the criteria establishing the Financial Management Program are reviewed in order to maintain relativity to the changing financial needs of the government.

Major Initiatives

Johns Creek achieved numerous successes in FY2019 with the standout accomplishment being the opening the new City Hall in March. The move to a consolidated facility is expected to ultimately save taxpayer funds while providing an efficient building for City Hall, Police, Fire and Courts to serve residents and businesses. The renovated three-story building is on 26 acres of land and future plans, part of the city's newly adopted 2018 Comprehensive Plan, include a linear park adjacent to the lake.

The city also renovated facilities in the parks including two bathrooms, a playground installation at Shakerag Tot Lot, and improvements to Newtown, Ocee, Shakerag, and Autrey Mill Parks. Constrution of Fire Station 64 was approved in FY2019 with groundbreaking just before year-end. The station, located on Kimball Bridge Road just west of Jones Bridge Road, will serve the center and northern portions of Johns Creek, reducing response times in that area.

The Police Department fully deployed body-worn cameras. The cameras will document incidents using video and audio, and will no longer be limited by proximity to the police vehicle. This documentation will allow us to provide transparency of actions, training opportunities, potential evidence, and policy review. Additionally, the City completed Zoning Ordinance amendment to align with the newly adopted 2018 Comprehensive Plan. The City also began a citywide Stormwater System Assessment project in October with an anticipated completion date in Spring 2020.

Awards and Acknowledgments

We are pleased to present the City's Comprehensive Annual Financial Report (CAFR), and submit the same to the Government Finance Officers Association (GFOA) for consideration in the Certificate of Achievement for Excellence in Financial Reporting program. We believe that our CAFR meets the program's requirements. The City has received the Certificate of achievement for the nine previous years.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Department of Finance. I would like to express my appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and City Council for their unfailing support for maintaining the highest standards of leadership and professionalism in the management of the City's finances.

Respectfully submitted,

Ed Densmore Acting City Manager

Presented to

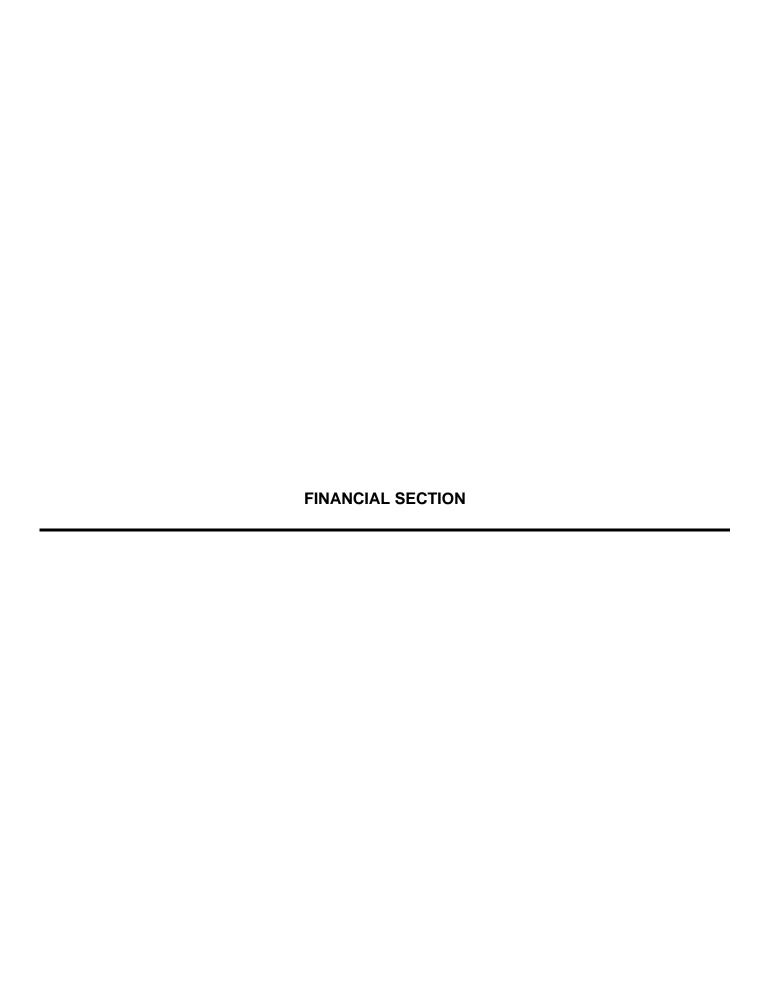

City of Johns Creek Georgia

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

September 30, 2018

Christopher P. Morrill

Executive Director/CEO

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the City Council of the City of Johns Creek, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the **City of Johns Creek, Georgia** (the "City"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Johns Creek, Georgia, as of September 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information on pages 4 through 10 and 38 and 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Johns Creek, Georgia's basic financial statements. The combining and individual fund statements and schedules as well as the introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information (continued)

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 13, 2020 on our consideration of the City of Johns Creek, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Johns Creek, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Mauldin & Jerkins LLC

Atlanta, Georgia March 13, 2020

CITY OF JOHNS CREEK, GEORGIA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Johns Creek (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the fiscal period by \$284,472,230, total net position. Of this amount \$50,938,094, unrestricted net position, is available to meet the ongoing obligations of the government.
- The City's increase in net position was \$26,077,131 during the fiscal period; primarily due to increasing revenues (property taxes and sales tax principally), along with managing expenses and spending less than budgeted.
- As of the close of the current fiscal period, the City's governmental funds reported combined ending fund balances of \$115,531,643.
- As of September 30, 2019, the City had total debt outstanding of approximately \$66.9 million which includes general obligation (GO) bonds totaling \$39,964,205, certificates of participation totaling \$22,395,000, and notes and contracts payable totaling \$3,499,259.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the fiscal period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report functions of the City that are principally supported by taxes (governmental activities). The governmental activities of the City include general government, judicial, public safety, public works, culture and recreation, community development, and interest on long-term debt.

The government-wide financial statements can be found on pages 11 and 12 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a general fund, a capital projects fund, parks bond fund, T-SPLOST fund, and six nonmajor governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund and three (3) other major funds noted above. Data from the other six governmental funds is combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 13 through 15 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The City uses an Agency Fund for the collection and remittance of cash appearance bond related activity for municipal court.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17 through 37 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as the budgetary comparison schedule for the general fund, which can be found on pages 38 and 39 of this report.

The combining statements and schedules, referred to earlier, are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 40 and 41 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$284,472,230.

The following table provides a summary of the City's governmental net position for the fiscal year 2019 and 2018:

City of Johns Creek Net Position

	Governmental Activities				
	2019	2018			
Current assets	\$ 125,020,044	\$ 126,893,207			
Capital assets, net of accumulated depreciation	234,808,860	215,957,663			
Total assets	359,828,904	342,850,870			
Current liabilities	11,547,803	15,064,553			
Long-term liabilities	63,808,871	69,391,218			
Total liabilities	75,356,674	84,455,771			
Net investment in					
capital assets	199,022,815	186,847,479			
Restricted for capital projects	433	433			
Restricted for law enforcement	551,514	560,887			
Restricted for transportation enhancements	33,959,374	19,923,227			
Unrestricted	50,938,094	51,063,073			
Total net position	\$ 284,472,230	\$ 258,395,099			

The largest portion of the City's net position reflects its investment in capital assets (e.g., roadways, sidewalks, culverts, equipment and signals) and park land; less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City's net position (\$433) represents resources that are restricted for use on capital projects. An additional portion of the City's net position (\$551,514) represents resources that are restricted for use in law enforcement activities. An additional portion of the City's net position (\$33,959,374) represents resources that are restricted for transportation enhancements. The remaining portion of the City's net position represents positive unrestricted net position of \$50,938,094 that is available to meet the ongoing obligations of the government.

At the end of the current fiscal period, the City reported a positive balance in total net position and in unrestricted net position.

<u>Changes in Net Position.</u> Governmental activities increased the City's net position by \$26,077,131 in fiscal year 2019. The following table indicates the changes in net position for governmental activities in fiscal years 2019 and 2018:

	Governmental Activities					
		2019	2018			
Revenues						
Program Revenues:						
Charges for services	\$	5,957,397	\$	5,789,267		
Operating grants and contributions		57,290		161,591		
Capital grants and contributions		21,168,742		24,020,439		
General Revenues:						
Property taxes		19,176,983		23,118,600		
Sales and use taxes		23,627,650		22,142,688		
Hotel/Motel taxes		598,277		508,090		
Franchise taxes		4,405,258		4,314,921		
Business taxes		8,041,356		7,396,040		
Unrestricted investment earnings		1,413,441		735,030		
Miscellaneous revenues		105,613		489,051		
Total revenues		84,552,007		88,675,717		
Expenses						
General government		6,094,580		8,766,867		
Judicial		684,550		646,763		
Public safety		23,986,578		23,882,918		
Public works		22,448,705		17,195,241		
Culture and recreation		898,736		3,591,129		
Community development		2,249,736		2,057,694		
Interest on long-term debt		2,111,991		2,143,914		
Total expenses		58,474,876		58,284,526		
Change in net position		26,077,131		30,391,191		
Net position, beginning of year		258,395,099		228,003,908		
Net position, end of year	\$	284,472,230	\$	258,395,099		

Governmental activities. Governmental activities increased the City's net position by \$26 million in fiscal year 2019. Key elements of this increase are as follows:

Total revenues were \$84 million, down 5.2% from the prior year. This decrease is primarily attributable to a decrease in property tax revenues of approximately 17% from prior year. The decrease in property tax revenues is the result of a combination of a 3.6% decrease in the total taxable assessed value and a reduction in millage rate of 0.29 mills from 2018. Sales and use tax revenue increased 6.7% from the previous year, consistent with improving economic conditions in the region. Business tax revenues increased by 8.7%, which is attributed to new development within the City. Unrestricted investment earnings increased by 92.3% resulting from better placement of deposits and investments and increased deposit balances in capital project funds.

Expenses decreased by \$300,000 (0.5%) from the previous fiscal year. Public safety, the City's largest department, increased approximately \$104,000; public works increased approximately \$5.3 million; general government decreased approximately \$3.2 million and culture and recreation decreased by approximately \$2.7 million from the previous year. These significant changes from prior year are primarily attributable to fluctuations in capital project activities. The other department's increases/decreases were minimal when compared to the previous years. The departments are conscious of the economic situation and have spent only where they felt it was essential to continue offering a high-quality level of service.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$115,531,643. A large component of the City's governmental funds combined ending fund balance is approximately \$87 million reported in the Capital Projects Fund, Parks Bond Fund, and T-SPLOST Fund. Overall, the City's fund balances increased by \$7.4 million from the previous fiscal year which is mostly attributed to an increase in sales tax revenues and intergovernmental revenues received in the T-SPLOST Fund.

General Fund. The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance was \$26.8 million, while total fund balance was \$27.6 million. The general fund decreased fund balance by approximately \$2.6 million due primarily to transfers to the Capital Projects Fund.

Capital Projects Fund. The capital projects fund decreased fund balance by \$3.7 million during fiscal year 2019. The fund recognized capital outlay expenditures on several large projects during the year. Fund balance as of September 30, 2019 was \$19,730,376.

Parks Bond Fund. This fund accounts for the issuance and expenditures of general obligation bonds related to the City's Parks Bond. For the current fiscal year, revenues were \$2,874,763 from taxes collected and interest earned, and expenditures of the bond proceeds amounted to \$2,920,652, leaving \$33,385,442 in fund balance for spending on greenspace projects in future periods.

T-SPLOST Fund. This fund accounts for the City's share of a transportation special purpose local option sales tax (T-SPLOST) collected to fund transportation enhancement projects. For the current year, revenues were \$15,453,529 and expenditures of \$1,417,382. Fund balance as of September 30, 2018 was \$33,959,374.

Key General Fund Budgetary Highlights

The City's budget utilized a conservative approach based on 5 years historical information and current economic conditions. Emphasis was given to ensuring financial stability and long-term stability while providing revenue enhancement; financial priorities and discipline.

The City employs an annual mid-year budget process in order to re-align appropriations made during the annual budget process with significant unexpected trends. This ensures adjustments facilitating appropriations to be in alignment with expected resources. Differences between the original budget and final amended budget are then resolved via official City Council action.

During the year budget realignments in appropriations were made between the original and final amended budget.

Total revenues in the General Fund were greater than final budgeted revenues by approximately \$2 million. This budget variance is mostly attributable to sales and business taxes received over anticipated levels. Total expenditures in the General Fund were less than final budgeted amounts by approximately \$1.8 million. This positive budget variance is mostly attributable to unspent contract services in various departments throughout the City.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental activities as of September 30, 2019, amounts to \$234,808,860 (net of accumulated depreciation). These assets primarily reflect the infrastructure assets for roadways, sidewalks, culverts and signals, and park land. Increases were attributed to public works projects such as right-of-way acquisition and development, roadway projects, intersection improvements, sidewalks/trails, improvements to the parks systems, and the purchase of public safety vehicles and equipment.

City of Johns Creek Capital Assets (net of depreciation)

Total	\$	234,808,860	\$	215,957,663	

Additional information on the City's capital assets can be found in note 6 on page 31 of this report.

Long-term debt. At the end of the current fiscal year, the City had total debt outstanding of \$66,874,345. The outstanding balance includes the following: \$38,770,000 for bonds issued in 2017 for parks with \$1,194,205 in premiums; \$22,395,000 certificates of participation for construction issued in 2017 related to a new City Hall; \$3,436,594 payable to the State Road and Tollway Authority (SRTA) for a Georgia Transportation Infrastructure Bank loan, the proceeds of which were used for road repair and resurfacing projects throughout the City; compensated absences of \$1,015,881; and the remaining long-term debt includes the balance related to the City's acquisition of the Shakerag Fire station from Fulton County upon the start-up of the fire department where the City assumed the building and the future lease payments, the outstanding balance of which at September 30, 2019 is \$62,665. Additional information on the City's long-term debt can be found in Note 7 on pages 32 through 34 of this report.

Economic Factors and Next Year's Budgets and Rates

All of these factors were considered in preparing the City's budget for the 2020 fiscal year.

- Sustainability of existing services the City has deployed a philosophy of budgetary evaluation which
 reviews the needs of the City to the standard which realizes that services and associated costs should not
 be appropriated if they are not justified as long-term goals of the organization. This philosophy is solidified
 during the budget process, with a multi-year financial outlook that provides the conduit to evaluate
 government priorities, realign and diversify revenue structures, and provide the data for decision making for
 continued financial success.
- Current economic situation the budget has anticipated that overall revenues will increase slightly with sales and use taxes increasing while property taxes are anticipated to decrease slightly.
- Cost of government The government is legally mandated to levy a maximum of 4.731 millage rate through the legislation that created the City; however, the City Council approved a millage rate in August of 3.552 mills. This millage rate is estimated to generate approximately \$16 million in revenue.
- Stabilization of revenue, especially sales tax revenues
- Competitive wages and benefits for City employees
- Vehicle replacement projects for Fire and Police
- Continued improvements to infrastructure, especially focused on streets and roads
- Improvements at various City Parks including pond dredging, foundation repairs, sidewalk connections and upgrades to playground equipment
- Continuation of the solid waste program

The City restricts the use of one-time revenues to reserves and limits the growth in expenditures from operations to those performance indicators which are designated as inadequate by City Council.

Requests for Information

This financial report is designed to provide a general overview of the City of Johns Creek finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of Finance, City of Johns Creek, 11360 Lakefield Drive, Johns Creek, Georgia, 30097.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 7,437,940
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which	
capital outlays exceeded depreciation expense in the current period.	18,645,871
The net effect of various miscellaneous transactions involving capital assets (i.e., disposals, and donations) is to increase net position.	205,326
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(2,748,685)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount represents the net effect of these transactions during the current fiscal year.	2,469,396
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	 67,283
Change in net position of governmental activities	\$ 26,077,131

CITY OF JOHNS CREEK, GEORGIA NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Johns Creek, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City, which was incorporated in 2006, operates under a charter adopted December 1, 2006, as a municipal corporation governed by an elected mayor and a six-member council. The government provides such services as police protection, fire and rescue services, cultural and recreational activities, housing and development and public works.

The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

The Johns Creek Convention Visitors Bureau (CVB) has been included as a discretely presented component unit in the accompanying financial statements. The CVB does not have the power to levy taxes or issue bonded debt. A voting majority of the governing body is appointed by City Council. The CVB receives substantially all of its funding from the hotel/motel occupancy taxes assessed by the City. Financial information with regard to the CVB can be obtained from the administrative offices at 11360 Lakefield Drive, Johns Creek, Georgia, 30097. Separate financial statements for the CVB are not prepared.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. The statement of net position includes non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Agency funds have no measurement focus; however, they use the accrual basis of accounting to recognize assets and liabilities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Property taxes, sales taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **general fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **capital projects fund** is used to account for the capital expenditures made by the City on long-term projects.

The **parks bond fund** is used to account for the proceeds of the General Obligation Bonds, Series 2017, issued by the City and the related capital projects.

The **T-SPLOST fund** is used to account for the proceeds of the transportation special purpose local option sales tax for the various improvement projects as approved by the voter referendum.

Additionally, the City reports the following fund types:

The **special revenue funds** account for revenue sources that are legally restricted to expenditures for specific purposes.

The **capital projects fund** is used to account for the capital expenditures made by the City on long-term projects.

The **debt service fund** accounts for the annual principal and interest payments made on the City's notes payable.

The **agency fund** is used to account for the collection and disbursement of monies by the City's Municipal Court on behalf of other individuals or entities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Encumbrances

The City employed encumbrance accounting during the year. Encumbrances, if existing at the end of the fiscal year, are recorded and appropriations lapse at year end. Open encumbrances would then be a commitment or an assignment of fund balance since the obligations would be honored in subsequent years. Encumbrances do not constitute expenditures or liabilities. There were no encumbrances outstanding at September 30, 2019, and none were recorded.

E. Budgets

Formal budgetary accounting is employed as a management control device for the governmental funds of the City. The governmental fund budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual operating budgets are adopted each fiscal year through passage of an annual budget ordinance and amended as required for the general fund, special revenue funds, and debt service fund. Project-length budgets are adopted for the capital projects funds. During the fiscal year ended September 30, 2019, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules.

All unencumbered budget appropriations lapse at the end of each year.

F. Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements.

The City's investments are recorded at fair value. Increases or decreases in the fair value during the year are recognized as a component of interest income.

G. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. The cost is recorded as an asset at the time the individual item is purchased. Inventories reported in the governmental funds are equally offset by nonspendable fund balance, which indicates that they do not constitute "available, spendable resources."

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond September 30, 2019, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the fiscal year in which services are consumed. Prepaid items reported in the governmental funds are equally offset by nonspendable fund balance which indicates that they do not constitute "available, spendable resources."

J. Capital Assets

Capital assets, which include buildings, improvements, machinery and equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The City has reported all infrastructures that it currently owns and has a responsibility for maintaining. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives is not capitalized.

Capital assets of the City are depreciated using the straight line method over the following useful lives:

Buildings	40 years
Improvements	10-40 years
Machinery and equipment	3-15 years
Infrastructure	50-75 years

Fully depreciated assets still in service are carried in the capital asset accounts.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items, both of which arise only under a modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, the items, *unavailable revenue – property taxes* and *unavailable revenue – intergovernmental* are only reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from both property taxes and grants as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable premium. Bond issuance costs are reported as expenses in the period in which they are incurred.

In the fund financial statements, governmental fund types recognize the face amount of the debt issued as other financing sources and the repayment of debt as debt service expenditures.

M. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Balance and Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by the adoption of a resolution by the City Council. Furthermore, only the City Council has the authority to modify or rescind the commitment and such action is accomplished only by adoption of a subsequent resolution.

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. Pursuant to the fund balance policy adopted by a resolution of the City Council, the Finance Director has been delegated the authority to assign funds for particular purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Balance and Net Position (Continued)

Fund balances are classified as follows (Continued):

Unassigned – Fund balances are reported as unassigned as the residual classification for the City's general fund and includes all spendable amounts when the balances do not meet any of the above criterion. In other funds, the unassigned classification will be used only to report a deficit balance from overspending for specific purposes for which amounts had been restricted, committed, or assigned. The City intends to maintain a minimum unassigned fund balance in its general fund of 25% of the subsequent year's budgeted expenditures and outgoing transfers. This minimum fund balance is to protect against cash flow shortfalls related to timing of projected revenue receipts and to maintain a budget stabilization commitment.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction, or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$67,638,984 difference are as follows:

Notes payable	\$ (3,436,594)
Certificates of participation payable	(22,395,000)
Contracts payable	(62,665)
Bonds payable, net of original issue premium	(39,964,205)
Accrued interest payable	(764,639)
Compensated absences	(1,015,881)
Net adjustment to reduce fund balance - total governmental funds to arrive	
at net position - governmental activities	\$ (67,638,984)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$18,645,871 difference are as follows:

Capital outlay	\$	24,495,869
Depreciation expense		(5,849,998)
Net adjustment to increase net change in fund balances - total governmental		
funds to arrive at change in net position - governmental activities	¢	18,645,871
rando to anivo at onango in not position governmental activities	φ	10,043,071

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "the net effect of various miscellaneous transactions involving capital assets (i.e., disposals, and donations) is to increase net position. The detail of this \$205,326 difference are as follows:

Net book value of deletions Donations of capital assets	\$ (284,624) 489,950
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position - governmental activities	\$ 205,326

Another element of the reconciliation states that "the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount represents the net effect of these transactions for the current fiscal year." The details of this \$2,469,396 difference are as follows:

Principal repayments on notes payable	\$	156,702
Principal repayments on certificates of participation		1,435,000
Principal repayments on contracts payable		247,694
Principal repayments on bonds payable		630,000
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position - governmental	Ф	0.400.000
activities	\$	2,469,396

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$67,283 difference are as follows:

Accrued interest payable	\$ 20,238
Amortization of bond premium	73,491
Compensated absences	 (26,446)
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position - governmental	
activities	\$ 67,283

NOTE 3. LEGAL COMPLIANCE - BUDGETS

The budget is officially adopted by the governing body prior to the beginning of its fiscal year, or a resolution authorizing the continuation of necessary and essential expenditures to operate the City will be adopted. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Transfers of appropriations within a department budget or within a non-departmental expenditure category require only the approval of the Finance Director and the City Manager. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, require approval of the governing body in the form of amendments to the budget resolution.

For the period ended September 30, 2019, expenditures of the Confiscated Assets Fund and Hotel/Motel Tax Fund exceeded their appropriations by \$29,627 and \$77,213, respectively. Expenditures of the General Fund exceeded their appropriations for debt service principal and interest by \$247,694 and 15,518, respectively. These excess expenditures were funded by available fund balance, and greater than anticipated revenues.

NOTE 4. DEPOSITS AND INVESTMENTS

Total deposits as of September 30, 2019 are summarized as follows:

Statement of Net Position:	
Cash and cash equivalents	\$ 64,753,325
Restricted cash and cash equivalents	30,228,279
Cash and cash equivalents - component unit	143,939
Statement of Fiduciary Assets and Liabilities:	
Cash - agency fund	146,953
	\$ 95,272,496
Cash deposited with financial institutions	\$ 48,323,285
Certificates of deposit	9,524,453
Local government investment pool - Georgia Fund 1	37,424,758
Total cash and cash equivalents	\$ 95,272,496

Interest Rate Risk: The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: State statutes authorize the City to invest in U.S. Government obligations; U.S. Government agency (or other corporation of the U.S. Government) obligations; obligations fully insured or guaranteed by the U.S. Government or a U.S. Government agency; obligations of the State of Georgia or other states; obligations or other counties, municipal corporations and political subdivisions of the State of Georgia; negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America; prime bankers' acceptances; repurchase agreements; and pooled investment programs sponsored by the State of Georgia for the investment of local government funds.

The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair value as of yearend and the City's investment in the Georgia Fund 1 is reported at fair value. The City considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation. As of September 30, 2019, the weighted-average maturity of the pool was 26 days.

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

Fair Value Measurements: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the City does not disclose the investment in the Georgia Fund 1 within the fair value hierarchy.

The City's certificate of deposits are considered non participating interest earning investment contracts, and are carried at cost.

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be covered by depository insurance or pledged securities. Amounts that exceed standard depository insurance limits are required to be collateralized either (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of Georgia or other states, or obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program. As of September 30, 2019, one of the financial institutions holding the City's deposits is a participant of the State of Georgia Secure Deposit Program, which is administered by the Office of the State Treasurer, requires participating banks holding deposits of public funds to pledge collateral at varying rates depending on tier assigned by the State. As of September 30, 2019, all of the City's bank balances were insured and/or collateralized as defined by GASB and required by State Statutes.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1, which is also the lien date. The City contracts with Fulton County to bill and collect City of Johns Creek property taxes. The taxes were levied on September 1 based on the assessed value of property as listed on the previous January 1 and were due on October 31. Property taxes levied on September 1, 2019 are for the year ended September 30, 2019, and property taxes are recorded as receivables and deferred inflows of resources when levied. Revenues are recognized in governmental funds when available.

Receivables at September 30, 2019, for the City's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

	Capital						Nonmajor					
		General		Projects Pa		arks Bond	s Bond T-SPLOST		Go	vernmental		Total
Receivables:												
Taxes	\$	22,977,405	\$	-	\$	1,941,908	\$	-	\$	53,762	\$	24,973,075
Accounts		821,599		-		-		-		308,181		1,129,780

Total	181,710,896	20,783,918	(2,612,279)	10,856,061	210,738,596
Less accumulated depreciation:					
Buildings	(1,217,785)	(688,214)	-	-	(1,905,999)
Improvements	(2,961,249)	(764,994)	-	-	(3,726,243)
Machinery and equipment	(12,073,379)	(1,452,202)	2,597,704	-	(10,927,877)
Infrastructure	(26,737,478)	(2,944,588)	-	-	(29,682,066)
Total	(42,989,891)	(5,849,998)	2,597,704		(46,242,185)
Total capital assets being					
depreciated, net	138,721,005	14,933,920	(14,575)	10,856,061	164,496,411
Governmental activities capital					
assets, net	\$ 215,957,663	\$ 19,135,821	\$ (284,624)	\$ -	\$ 234,808,860

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities:	
General government	\$ 1,048,973
Public safety	1,153,842
Public works	2,988,029
Culture and recreation	 659,154
Total depreciation expense - governmental activities	\$ 5,849,998

NOTE 7. LONG-TERM DEBT

Changes in Long-Term Liabilities

The following is a summary of long-term debt and liability activity for the City for its fiscal year ended September 30, 2019:

	 Beginning Balance	Additions		Reductions			Ending Balance		Due Within One Year
Governmental activities									
General obligation bonds payable	\$ 39,400,000	\$	-	\$	(630,000)	\$	38,770,000	\$	660,000
Bond premiums	1,267,696		-		(73,491)		1,194,205		-
Bonds payable, net	40,667,696		-		(703,491)		39,964,205		660,000
Notes payable from direct borrowing	3,593,728		-		(157,134)		3,436,594		148,675
Contracts payable	310,359		-		(247,694)		62,665		62,665
Certificates of participation	23,830,000		-		(1,435,000)		22,395,000		1,475,000
Compensated absences	989,435		726,859		(700,413)		1,015,881		719,134
Total governmental activities					<u>.</u>				,
long-term liabilities	\$ 69,391,218	\$	726,859	\$	(3,243,732)	\$	66,874,345	\$	3,065,474

For governmental activities, compensated absences are liquidated by the General Fund.

Notes Payable – Direct Borrowings

The City has executed a note payable agreement with the State Road and Tollway Authority (SRTA). The note, financed through the Georgia Transportation Infrastructure Bank (GTIB), allowed the City to borrow \$4,000,000 for various road projects throughout the City. Monthly payments of principal and interest commenced in February 2016 in the amount of \$22,810 and will continue until the note matures on January 1, 2036. The note bears interest at 3.31%. As of September 30, 2019, the outstanding balance on this note is \$3,436,594.

The total debt service requirements to maturity for the City's outstanding notes are as follows:

Fiscal year ending September 30,	Principal			Interest		Total		
2020	\$	148,675	\$	102,233	\$	250,908		
2021	Ψ	167,412	Ψ	106,305	Ψ	273,717		
2022		173,038		100,679		273,717		
2023		178,853		94,864		273,717		
2024		184,864		88,853		273,717		
2025-2029		1,021,791		346,794		1,368,585		
2030-2034		1,205,422		163,164		1,368,586		
2035-2036		356,539		8,417		364,956		
	\$	3,436,594	\$	1,011,309	\$	4,447,903		

NOTE 7. LONG-TERM DEBT (CONTINUED)

Contracts Payable – Direct Borrowing

During fiscal year 2009, the City entered into an agreement with Fulton County to assume the debt service for certain certificates of participation in the principal amount of \$1,439,024 with payments beginning May 1, 2009 through November 1, 2019 at an interest rate of 4.90% in return for land and buildings for the fire department.

The City's debt service requirements to maturity on the contracts payable are as follows:

Fiscal year ending September 30,	ber 30, Principal II		nterest	 Total		
2020	\$	62,665	\$	3,133	\$ 65,798	
	\$	62,665	\$	3,133	\$ 65,798	

Certificates of Participation

In September 2017, the Georgia Municipal Association issued Certificates of Participation on behalf of the City in the amount of \$23,830,000. The proceeds from the certificates will be used to finance the construction and renovations of the City's new City Hall building. The certificate bears interest at 2.56% with semiannual interest payments beginning on March 1, 2018 and annual principal payments beginning September 1, 2019 until maturity on September 1, 2032.

The City's debt service requirements to maturity on the certificates of participation are as follows:

Fiscal year ending September 30,		Principal		Interest		Total
2020	ው	4 475 000	φ	F70 040	φ	0.040.040

NOTE 7. LONG-TERM DEBT (CONTINUED)

General Obligation Bonds Payable

In April 2017, the City issued \$40,000,000 of General Obligation Bonds (Series 2017) for the purpose of funding construction projects for the City. The bonds were issued at a premium of \$1,340,402 and interest rates ranging from 3% to 5%. The interest payments are due semiannually beginning October 1, 2017 and annual principal payments beginning April 1, 2018. The bonds are scheduled to mature on April 1, 2047.

The City's debt service requirements to maturity on the bonds payable are as follows:

Fiscal year ending September 30,	 <u>Principal</u>		Interest	 Total
2020	\$ 660,000	\$	1,431,638	\$ 2,091,638
2021	700,000		1,398,638	2,098,638

2040-2044	9,730,000		2,269,150	11,999,150
2045-2047	7,090,000		504,350	7,594,350
	\$ 38,770,000	\$	23,775,490	\$ 62,545,490

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Due to/from other funds:

Receivable Entity	Payable Entity	A	Amount	
General Fund	Nonmajor governmental funds	\$	15,354	

The above interfund balance results from the collection of revenues in the nonmajor governmental funds that are owed to the General Fund and are subsequently remitted after year-end.

Interfund transfers:

Transfers In	Transfers Out	 Amount
General Fund	Nonmajor governmental funds	\$ 170,868
Capital Projects Fund	General Fund	18,607,982
Capital Projects Fund	Parks Bond Fund	278,435
Nonmajor governmental funds	General Fund	2,318,765
		\$ 21,376,050

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. COMMITMENTS AND CONTINGENT LIABILITIES

Contractual Commitments

The City has entered a public/private contractual partnership for outsourced services and operations. Through this contract with a private company, an array of operational services is provided via outsourcing. This contract is an operating contract for which the City is continually monitoring its outsourcing needs as compared to providing services in-house. Currently, this contract is approximately \$2.7 million, subject to annual negotiation and appropriation.

The City has entered into contracts for construction and various other professional services. As of September 30, 2019, the balance left to complete these contracts is approximately \$87,500.

NOTE 9. COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

Litigation

The City is a defendant in certain legal actions arising in the course of City operations. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse impact on the financial position of the City.

Grant Contingencies

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

NOTE 10. DEFINED CONTRIBUTION RETIREMENT PLAN

The City of Johns Creek's Profit Sharing Plan is a single employer defined contribution plan established and administered by the City for all full time employees. At September 30, 2019, there were 213 plan members. The City contributes 12% of eligible employees' base salary and matches 100% for each dollar of employee contributions up to 5% of the employee's salary. Employees are not required to contribute to the Plan. Employees are eligible after six months of employment. Funds from the City vest 20% per year (five-year vesting schedule) based upon the employee's date of hire for those hired after January 1, 2017. Employees hired prior to January 1, 2017 were 100% vested upon entry into the Plan. For the fiscal year ending September 30, 2019, the City's contributions to the Plan were \$2,519,211. The Plan was established by resolution of the City Council. The Plan, including contribution requirements, may also be amended by resolution of the same.

NOTE 11. JOINT VENTURES

Under Georgia law, the City, in conjunction with other cities around the Metropolitan Atlanta Georgia area, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto, which Fulton County has paid on behalf of the City of Johns Creek. Membership in ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organization structure of ARC. ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street NE, Atlanta, Georgia 30303.

NOTE 11. JOINT VENTURES (CONTINUED)

In October 2008 the cities of Sandy Springs and Johns Creek created the Chattahoochee River 911 Authority (ChatComm), which was created pursuant to the provisions of the Official Code of Georgia Annotated (OCGA) Section 36-75-1, which provides for the organization of a joint public safety and judicial facility authority. ChatComm Board membership includes the City Manager from each participating city, or their designee. ChatComm was created by the two cities contributing a predetermined capital amount necessary to equip the facility. In accordance with GASB 14: The Financial Reporting Entity, ChatComm was determined to be a joint venture; however, the City does not have an equity interest in the joint venture. The cities have also pledged their future E911 revenues to ChatComm to pay for the operation of the emergency 911 answering facility. Additionally, the two cities will be responsible for funding any operating deficits as well as any future capital purchases of ChatComm. For the year ended September 30, 2019, the City of Johns Creek has collected and remitted \$1,921,644 of E911 revenues. Since the inception of ChatComm, the City has contributed \$5,240,975 to cover the capital and operating needs in addition to the E911 revenues remitted. While the E911 Fund of the City reports a receivable for this amount, management has evaluated the ability of the City to collect the receivable and determined the need to allow for 100% of the outstanding receivable as of September 30, 2019. As of June 30, 2019, ChatComm's fiscal year end, the entity had a negative net position of (\$12,082,910). Separate financial statements may be obtained from the City of Sandy Springs, who has been contracted by ChatComm to serve as the accountants, at 1 Galambos Way, Sandy Springs, Georgia 30328.

NOTE 12. HOTEL/MOTEL LODGING TAX

The City has levied a 7% lodging tax. The Official Code of Georgia Annotated 48-13-50 requires that all lodging taxes levied of 5% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. During the year ended September 30, 2019, the City received \$598,277 in hotel/motel taxes. Of this amount, \$427,409, or 71.4%, was used for the promotion of tourism, conventions, or trade shows.

NOTE 13. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted or committed to expenditures for particular purposes.

Confiscated Assets Fund – This fund is used to account for the use of confiscated assets by the City's Police Department. These revenues are restricted by State of Georgia law for law enforcement purposes.

E-911 Fund – This fund is used to account for the monthly 911 charge to fund the cost of providing emergency 911 services to the City. Financing is provided through user fees and charges which are restricted by the Official Code of Georgia Annotated (O.C.G.A) 46-5-134.

Hotel/Motel Tax Fund – This fund is used to account for the 7% occupancy tax collected by the City from area hotels and motels. The tax revenues in this fund are restricted by O.C.G.A 48-13-51.

Tree Replacement Fund – This fund is used to account for the charges for services collected by the City from third parties who remove trees during the land development process pursuant to the City's Tree Replacement Ordinance. The revenues in this fund are committed by an Ordinance passed by the City Council.

Capital Project Fund

CDBG Fund – This fund is used to account for the expenditures and revenues received from the U.S. Department of Housing and Urban Development for the City's Community Development Block Grant (CDBG) project.

Debt Service Fund

Debt Service Fund – This fund is used to account for the accumulation of resources and payment of principal and interest on the City's outstanding notes payable.

STATISTICAL SECTION

This part of the City of Johns Creek's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

	<u>Page</u>
Financial Trends	50
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	52
These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.	
Debt Capacity	60
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	64
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	66
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report.

Bonds payable		39,964,205	100.00			39,964,205	
Certificates of participation		22,395,000	100.00			22,395,000	
Total Direct Debt		65,858,464				65,858,464	
Total Direct and Overlapping Debt	\$	365,181,462			\$	90,451,412	

Source: Assessed value data used to estimate applicable percentages obtained from Fulton County Board of Assessors and debt outstanding obtained from Fulton County.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

LEGAL DEBT MARGIN INFORMATION SEPTEMBER 30, 2019

	2019		 2018	2017
Debt limit	\$	549,135,761	\$ 532,860,817	\$ 459,713,097
Total net debt applicable to limit		(38,770,000)	 (39,400,000)	 (40,000,000)
Legal debt margin	\$	510,365,761	\$ 493,460,817	\$ 419,713,097
Total net debt applicable to the limit as a percentage of debt limit Legal Debt Margin Calculation:		7.06%	7.39%	8.70%
Assessed value Debt limit (10% of assessed value) Debt applicable to limit: General obligation bonds Less: Amount set aside for repayment of General obligation debt Total net debt applicable to limit Legal debt margin	\$	5,491,357,606 549,135,761 38,770,000 - 38,770,000 510,365,761		

NOTE 1: Under state finance law, the City's outstanding general obligation debt should not exceed 10 percent of total assessed property value. By law, the general obligation debt subject to the limitation may be offset by amounts set aside for repaying the general obligation bonds.

NOTE 2: Fiscal year 2017 was the first year in which the City issued general obligation bonds.
